COCKTAIL MENU

We don’t just make martinis… we live and breathe the bloody things. It’s not just a drink; it’s a labor of love in every glass. We have our own gins, we have our own vodka, every single glass is kept in the freezer to make your martini the perfect temperature and if that isn’t enough for you demanding and needy people we make our own vermouths too.

We take pride in what we do at Lucky’s. Every drink is made fresh to order.
No pre batching bullshit here. You chose to spend your hard-earned money with us, so we choose to give you the best drink and the best experience and make your drink for you fresh. There are just some things you don’t fuck around with, and a good martini is one of them.

And just so we’re clear… we will not and do not,
under any circumstances, ever shake a martini so don’t ask.

So, sit back, chill out, sip an ice-cold martini, listen to some 90's hip hop bangers and forget about the world for a bit. Enjoy the moment and the best martinis in town.

If anyone is being a dick, ruining the vibe or making you feel uncomfortable, speak to the team or shoot us a text and we’ll sort it out for you: 0413 130 631
